Section 1. Purpose and Scope

These regulations apply to all students of Northgate Sample University (NSU), an imaginary institution created only to test software. They explain how semesters, courses, attendance, grading and degrees work.

Section 2. Semester System

The academic year has two semesters. Each semester lasts 16 weeks of teaching and assessment. Examination arrangements are described in the Examination Rules.

Section 3. Course Registration

A student must register for at least 12 and at most 18 credit hours in a semester. Courses can be added or dropped during the first week of the semester without penalty.

A student may withdraw from a course until the end of week 8. A withdrawn course shows a grade W on the transcript and does not affect the GPA. Withdrawal after week 8 is not allowed.

Section 4. Attendance

A student must attend at least 75 percent of the lectures in each course to be allowed to sit the final examination of that course. A student who falls below 75 percent is marked Not Allowed (NA) for the final examination and receives an F in that course.

Absence for documented medical reasons is recorded but still counts toward the 75 percent rule.

Section 5. Grading

Grades are assigned on a 4.0 scale as shown below.

Marks	Grade	Grade points
85 or above	A	4.0
70 to 84	B	3.0
55 to 69	C	2.0
50 to 54	D	1.0
Below 50	F	0.0

The semester GPA is the sum of (grade points x credit hours) for all courses divided by the total credit hours attempted. The CGPA is calculated in the same way over all semesters.

Example: a student earns grade A in a 3-credit course (12 quality points), grade B in a 3-credit course (9 quality points) and grade C in a 4-credit course (8 quality points). The total is 29 quality points over 10 credit hours, so the semester GPA is 2.9.

Section 6. Academic Probation

A student whose semester GPA falls below 2.0 is placed on academic probation for the next semester. A student on probation for two consecutive semesters may be required to withdraw from the program.

Section 7. Repeating Courses

A student may repeat a course in which a grade of D or F was earned. A course may be repeated at most twice. The latest grade replaces the earlier grade in the CGPA. Repeated courses are charged as described in the Fee Schedule.

Section 8. Semester Freeze

A student may freeze a semester for serious personal or medical reasons. The request must be approved before the semester starts. A student may freeze at most 2 semesters during the whole program.

Section 9. Degree Requirements

The BS degree requires completion of 130 credit hours with a minimum CGPA of 2.0. BS students must also complete a final year project worth 6 credit hours.

A student must complete the degree within 7 years of the first admission, not counting frozen semesters.

Section 10. Honors

A student whose semester GPA is 3.5 or higher, who has registered for at least 15 credit hours and has no F grade, is placed on the Dean's List for that semester.

Section 11. Academic Integrity

Plagiarism and copying are serious offences. For a first offence in an assignment, the student receives zero marks for that assignment. For a second offence, the student receives an F in the course. Offences during examinations are handled under the Examination Rules.

Section 12. Course Prerequisites

A student may register for a course only after passing its prerequisite course with a grade of D or higher. A department may allow a final-semester student to take a prerequisite and the next course at the same time.

Section 13. Credit Transfer

Credit may be transferred from another recognized university for at most 50 percent of the total credit hours of the program. Only courses with a grade of B or higher are considered, and the department decides which courses are equivalent.

Section 14. Final Year Project

The final year project is worth 6 credit hours and is completed over two semesters. Projects are done in groups of at most 3 students under a faculty supervisor. A panel evaluates each project through a written report and a final presentation.

Section 15. Internship

Every BS student must complete a 6-week internship before graduation. The internship carries no credit hours, but an internship completion certificate must be submitted to the department.

Section 16. Academic Advising

Each student is assigned an academic advisor. Students meet their advisor at least once per semester, before course registration, to plan courses and check progress toward the degree.

Section 17. Grade Complaints

A student who disagrees with a grade first discusses it with the course instructor within 5 working days of the grade being posted. If the issue is not solved, the student may write to the head of the department. A formal review of a final examination result follows the Examination Rules.

Section 18. Frequently Asked Questions

Can I take more than 18 credit hours? Only a graduating student with a CGPA of 3.0 or higher may apply to the Academic Office for up to 21 credit hours in the final semester.

Does a withdrawn course affect my GPA? No. A course withdrawn by the end of week 8 shows a grade W and is not counted in the GPA.

What happens to my old grade when I repeat a course? The latest grade replaces the earlier grade in the CGPA.
