Section 1. Purpose and Scope

This policy explains how applicants are admitted to the programs of Northgate Sample University (NSU), an imaginary institution created only to test software. It covers eligibility, the application process, the entry test, merit calculation and seat confirmation.

Fee matters are described in the Fee Schedule, and rules for enrolled students are described in the Academic Regulations and the Examination Rules. If this policy and another document appear to disagree, the Admissions Office decides which applies.

Section 2. Programs Offered

NSU offers the following sample programs. Programs are offered subject to sufficient enrolment.

Program	Level	Duration	Credit Hours
BS Computer Science	Bachelor	4 years	130
BS Software Engineering	Bachelor	4 years	130

Program	Level	Duration	Credit Hours
BS Business Administration	Bachelor	4 years	130
BS Mathematics	Bachelor	4 years	130
MS Computer Science	Master	2 years	30
Master of Business Administration (MBA)	Master	2 years	54

Section 3. Eligibility

Applicants to the Bachelor of Science (BS) programs must have completed twelve years of schooling with at least 60 percent marks in the qualifying examination. Applicants to BS Computer Science and BS Software Engineering must also have studied mathematics in the qualifying examination.

Applicants to the Master programs must hold a four-year bachelor degree with a CGPA of at least 2.5. There is no work-experience requirement for the MBA. There is no upper age limit for any program.

Applicants with qualifications from foreign boards must submit an equivalence certificate with their application.

Section 4. Application Process

Applications are submitted through the online admission portal during the application window. The steps are:

- Create an account on the admission portal using a valid email address.
- Fill in the application form with personal and academic details.
- Upload the required documents (see Section 5).
- Pay the application fee shown in the Fee Schedule.
- Submit the form and download the confirmation slip. Keep the slip until admission is confirmed.

An application can be edited until it is submitted. After submission, changes are allowed only by written request to the Admissions Office before the window closes.

Section 5. Required Documents

Applicants upload a scanned copy of their academic transcript, a national identity document and one passport-size photograph. Original documents are shown to the Admissions Office at registration. Incomplete applications are not processed.

Section 6. Admission Timeline

The Fall intake window opens on 1 June and closes on 15 July. Late applications are not accepted.

Event	Date
Application window opens	1 June
Application window closes	15 July
Entry test	25 July

Event	Date
Merit list published	5 August
Seat confirmation deadline	Within 7 days of merit list publication
Second merit list (if seats remain)	12 August

Section 7. Entry Test

Applicants to BS programs sit the university entry test, held on 25 July. The test is scored out of 100 marks and the minimum passing score is 50 marks.

The test has 100 multiple-choice questions to be answered in 90 minutes: 40 questions on mathematics, 30 on English and 30 on analytical reasoning. There is no negative marking. Calculators and mobile phones are not allowed in the test hall.

Applicants to Master programs do not sit the entry test. They attend a subject interview of about 20 minutes instead.

Section 8. Merit List

The merit score is calculated as 50 percent academic record and 50 percent entry test result. The merit list is published on 5 August.

Example: an applicant with 80 percent in the qualifying examination earns 40 merit points from the academic record (80 x 0.5). If the same applicant scores 70 out of 100 in the entry test, the applicant earns 35 merit points from the test. The total merit score is 75.

If two applicants have the same merit score, the applicant with the higher entry test score is ranked first.

Section 9. Seat Confirmation

Selected candidates must confirm their seat within 7 days of publication of the merit list by paying the first-semester dues shown on the fee voucher. A seat that is not confirmed in time is offered to the next applicant on the waiting list.

If seats remain after the first merit list, a second merit list is published on 12 August. Candidates on the second list have 7 days from its publication to confirm their seats.

Section 10. Cancellation of Admission

The university may cancel an admission at any time if an applicant is found to have submitted false or altered documents. A student whose admission is cancelled for this reason is not entitled to a refund.

Section 11. Contact

Questions about admissions can be sent to the Admissions Office at admissions@example.invalid. The office is open Monday to Friday from 9:00 to 16:00. This address is imaginary and is used only for software testing.

Section 12. Transfer Students

Students from other recognized universities may apply to transfer into a BS program of NSU. Transfer applications are accepted only for BS programs and only during the application window.

A transfer student may be granted credit for at most 50 percent of the total credit hours of the program, which is 65 credit hours for a 130 credit-hour program. Only courses with a grade of B or higher are considered. The applicant must submit course outlines for every course for which credit is requested.

The Admissions Committee decides each transfer application within 15 working days of receiving all documents.

Section 13. Reserved Seats

Five percent of the seats in each BS program are reserved for outstanding sports achievers. Two percent of the seats are reserved for applicants with disabilities. Applicants for reserved seats must still pass the entry test with at least 50 marks.

Section 14. Registration and Orientation

After seat confirmation, new students complete registration at the Admissions Office and show their original documents. A student identity card is issued within 5 working days of registration.

An orientation week is held before classes begin. Attendance at orientation is compulsory for new students.

Section 15. Deferment of Admission

A student with a confirmed seat may defer admission by one semester if the request is made in writing before classes begin. Admission can be deferred only once. Fees already paid for the deferred semester remain valid.

Section 16. Complaints About Admission Decisions

An applicant who disagrees with an admission decision may submit a written complaint to the Admissions Office within 5 working days of the merit list publication. The Admissions Committee replies within 10 working days. The decision of the Committee is final.

Section 17. Frequently Asked Questions

Can I apply to more than one program? Yes. An applicant may select up to 2 program choices in one application, and one application fee covers both choices.

What if I score below 50 marks in the entry test? The applicant is not eligible for a BS seat in that intake and may reapply in the next Fall intake.

Can I change my program after admission? A program change is allowed once, within the first two weeks of the first semester, if a seat is available and the student's merit score is at least the last merit score of the requested program.
